Dated: June 20, 2007

ISU Communication 1445

Clarification of Spins of a Different Nature/Character for Juvenile – Novice Free Skate

SINGLES, FREE SKATE

ISU Communication 1445 states “All spins must be of a different character (must have different abbreviations). Any spin with the same abbreviation as the one executed before will be deleted by computer (but will occupy a spinning box).” U.S. Figure Skating will also be using this definition for the juvenile through novice singles free skate levels. For those levels a maximum of three spins of a “different nature” are allowed.

Therefore, a spin abbreviation may only be used once within a program for all levels from juvenile through senior.
